

# My Future Work

Miguel Lim

H4A - 24

# Livelihood

- **As an engineer, I believe that I will be able to provide for the necessities that I need in life with the amount that I may earn.**
- **I also believe that I will be able to support a family and make the life of my family comfortable.**

# Human Dignity

- I see my being an engineer a way to make myself improve. With my skills in science and math, I see this type of work help me develop my skills in these areas.
- With the things that I will do as an engineer, I believe that I will gain a sense of pride and dignity.

# Service

- **As an engineer, I believe that I will be able to help society improve. With the things that I will possibly create or improve upon, I can help society benefit.**

# Vocation

- **In my work, I can help the people around me. With this, I know that I am able to make an impact in the lives of some people, no matter how small, and this is enough to make my life meaningful.**
